

Rate Schedule (CV-TPT6) for Transmission of Western Power by Others

Informal Rates Meeting

June 25, 2009

Padmini Palwe

Rate Schedule

- Central Valley Project: Schedule of Rate for Transmission of Western Power by Others (CV-TPT6) (WAPA-115)
 - Effective until September 30, 2011 (via Rate extension: Rate Order No. WAPA-139)
 - Applicable to Western's power customers who require transmission service by a third party to receive Western power

Rate Schedule

- Component 1: All Western costs, including losses, are charged to customers receiving third party transmission service.
- Component 2: Any FERC or other Regulatory body charges/credits are directly passed through to customers receiving this service.
- Component 3: Any HCA charges/credits applied to Western for providing this service are directly passed through to customers receiving service.

Western Billing

- Western receives monthly bills from PG&E, and third-party transmission is billed monthly under the formula rate.
- Cost is allocated to customers receiving service based on their monthly meter data (energy & capacity).
- Description of charges on the customer bill:
 - PG&E Pass-thru Wheeling (WDT)
